Samsung Galaxy

S21 5G Series

Why premium?

It's time to invest in your employees and your business. Premium smartphones are a lot more than just a phone. They don't only enable collaboration, they boost it.

In a survey conducted pre-COVID, nearly 83% of professionals said they depend on technology to collaborate.¹

Unleash your employees' full potential with the ultimate tool for business.

Empowered. Motivated. Respected. This is how your employees will feel with the Galaxy S21 5G series in their hands. All of which are linked to stronger job performance, job satisfaction and job loyalty.

When employees are given high-powered tools and resources, they can better manage or lead their own projects, work toward their goals and drive their own career. The benefits of which are endless.

Give creativity the chance to flourish.

Creativity is what fuels big ideas, challenges employees' way of thinking, and opens the door to new business opportunities.

But they need a phone that comes fully armed to tackle the challenges of tomorrow. The Galaxy S21 5G series is your employees' 'anywhere office'. They can tap into their creativity anytime, anywhere with advanced and exciting tools that foster innovation and inspiration. All on a device that they rely on to deliver the power they need day after day.

By investing in your workforce with top technology, you can remove siloes and unnecessary processes ultimately increasing businesses' productivity, while outdated technology is one of the top 10 barriers to staff creativity.²

Provide the user experience that takes their work to the next level.

Premium smartphones make work way more intuitive, much more enjoyable and a fair bit faster too. With the best user experience around, there's nothing to get in your employees' way. They'll also have high processing power and cutting-edge features to further boost their capabilities, allowing them to get everything done from their phone.

See the potential with the Galaxy S21 5G series.

Kit your people out with the new premium Samsung power phone. It's specifically designed to aid creativity, collaboration, productivity and data security.

With Enterprise Edition, you get a suite of mobile technology, business applications, support and services that ensures your employees are ready for work.

An unrivalled quality Galaxy camera makes it easy to capture epic, share-ready photos and videos anytime—no apps or editing.

The first S Pen on the S Series lets you effortlessly take notes, capture thoughts and develop ideas whenever and wherever inspiration strikes.³

Galaxy AMOLED is the most vivid and brightest smartphone display ever, so your work is always crystal clear. You can immediately view and work on it without having to switch onto other devices.

With Samsung Knox defence-grade mobile security built into every device, you don't have to worry about sensitive and confidential data falling into the wrong hands.

Powerful connectivity helps you work smarter and faster. 20% faster Wi-Fi speeds means there's nothing to slow you down.

3. S Pen only compatible with S21 Ultra 5G. Pen is sold separately.
